Mary Lou-

They avoid any spotlight on temperature, other than Dworkshak temperature control because of all the

violations. We could use your help in bringing more focus on the issue. Thanks for bringing it up.

By the way, check out the paper that I prepared for the remand on GCL temp control. Would appreciate your thoughts on it.

Bob and Tom:

On the Corps web site (below) they never mention temperature data, only TDG.
The data is there but they pretend that nobody looks at the temperature data.
Do you why?
